

Innovating on A2J?

The Action Committee on Access to Civil and Family Matters is building an inventory of ways access to justice is being improved. We want to hear about your project successes (and failures). Tell us about your innovations in:

- ☐ collaboration
- ☐ governance
- ☐ new delivery approaches
- ☐ technology
- ☐ evaluation.

The inventory will result in a toolbox and network for organizations of different types and sizes to learn from each other. Submit your innovations by May 15th here: <https://calibratesolutions.wufoo.com/forms/action-committee-innovation-inventory/>
